7	I could give a 'beginner' workshop for those who are not familiar with using laptops, email, word, facebook, excel, etc. - but I'm not a 'tech expert'. I'm just comfortable with 'basic use'.	4/18/2014 4:48 PM

1	Cannot mentorship when the programs have changed and I no longer know how to use the new programs like work and pages. I can no longer "box" my text and make worksheets for my students. Very frustrating.	6/7/2014 8:32 AM
2	Any of the tech stuff-- smartboard use, imovie, powerpoint. ( I don't want to do a Thursday training because I.m too shy. I'd be happy to assist. Sylvia Bisbee	6/6/2014 3:16 PM
3	only superficially showing shortcuts and such for writing reports .cutting, pasting, highlighting, ...I have only learned by trial and error, practice, and watching others- in small bits.. a long presentation would be too fast and overwhelming..	6/6/2014 1:55 PM

15	Again, only for those unfamiliar with the basics. (Why waste the time of experts to just get someone started?) Once the person is comfortable, they'd need to move on for 'higher tech' knowledge. This is ONLY if required/needed. I'm fine to 'not mentor', too. :-)	4/18/2014 4:49 PM
