| 6  | I have given workshops on various tech topics in the past both in this district and at conferences in Vancouver. Currently, I tend to present on the topic of instructional design for online learning environments. I gave a workshop on designing online courses for the new curriculum at the BCDL conference last month. I have been asked to present this in Sept for the Vancouver Learning Network. I don't know how much interest there is in this locally. I could present on anything to do with online learning. | 5/4/2018 3:19 PM   |
