

Technology Planning Committee

Friday, April 20th, 2018

Present: Patrick, Nic, Ron, Jay, Don, Cory, Phil

Minutes

The notion that technology itself can improve student outcomes must die. However, the notion of a well-trained teacher, effectively wielding technology while finding new ways to discover and create, promises to transform the learning experience.

Review our guiding principles....

...serves as a measurable and attainable guide to assist in improving the academic achievement of all students
Suggestions on how to measure as we do not do benchmarks of our students before using technology.

****Considering a survey of students to see if we can find out from students if technology is helping them learn*
